

THINK GREEN. THINK RENEW.

This 100% certified recycled polyester fabric can be recycled and made back into future gown products helping divert from landfills. To further reduce our carbon footprint, we created the innovative Renew Gown Recycling program, which allows graduates to drop their gown in the nearest Renew Gown collection box after walking and keep their cap and tassel as mementos of their achievement.

Highest Quality Keeper Gown in the Industry

- As being the BEST in the industry; one Renew gown saves 29 bottles from the landfill
- Every Renew gown saves the energy equivalent of 1/2 gallon of gas
- Consumes 2.1 liters less drinking water
- Decreases the effects of global warming through 1.5lbs fewer CO² emissions or greenhouse gas
- Certified as being made from 100% recycled materials
- Renew has a soft hand and is a lightweight polyester fabric

By using these materials, your institution generates demand for recycled materials, creates jobs and reduces the amount of materials that go into landfills. To learn more about our sustainable efforts, visit herffjones.com
